

AUSTRALIAN POWER EQUIPMENT

CORPORATE OVERVIEW

ABOUT

Australian Power Equipment supply low, medium & high voltage equipment to industries throughout Australia.

Established in 2020, and based in the Hunter Valley, Australian Power Equipment (A.P.E) are the agents for üntel, B&D, Leistung , CAB and others through long standing relationships within the electrical industry.

A.P.E have the ability to provide new equipment for sale or hire, and have an extensive inventory of In Stock equipment

A.P.E pride themselves on being able to source critical equipment, promptly.

At Australian Power Equipment our vision is simple; we supply you with the Best in Business equipment, service and advice.

Directors Andrew Cockbain and Abby Crawford have over 30 years of extensive industry and business knowledge, with Andrew equipped to provide specifications, advice & solutions across cabling and electrical distribution networks.

"We believe in keeping it simple. Solid advice, without the hassle. We get you the equipment you need, in the fastest possible time. And if you're stuck, we can get you unstuck" says Andrew.

For projects where timelines allow, it's easy to order the right equipment to specification, and have it shipped from our select range of suppliers. However sometimes equipment is needed in a tighter timeframe.

That's where the in hand stock at A.P.E warehouses can be engineered to meet requirements in a fraction of the time it takes to manufacture and ship new equipment. And if it's not in our warehouse? The critical equipment sourcing is a great service for when you need it urgently.

AUSTRALIAN **POWER** EQUIPMENT

AGENTS FOR

Untel

We supply a range of tunnelling and mining cables to specification, as the agent for industry leader Untel.

Bambangdjaja – B&D

Power, Cast Resin, Instrument and many more types of transformers are regularly supplied to Australian sites through our agency with B&D.

Leistung

As the Distributor for Leistung we supply gas and air insulated switchgear in high, medium and low voltage requirements.

CAB

As the Agent for CAB we supply Solar and Site cable management products.

IN STOCK

WE HAVE AN EXTENSIVE LIST OF STOCK AVAILABLE

Stock includes electrical switchgear, XLPE and rubber mining and tunnelling cable, new & refurbished transformers, VVVF drives and relays.

These items change rapidly as the growing delays in international manufacturing and shipping turnaround times impact new sales, and sites are eager to purchase suitable equipment directly from our in stock items.

Speak to us to obtain the specifics of stock available.

CRITICAL SOURCING

When you're stuck we can help. Usually.

If you're needing critical equipment talk to Andrew who has proven performance both locally and internationally. His extensive experience in the industry, and trusted networks have seen the seemingly impossible to find stock found, and found promptly.

The Critical Sourcing service that Australian Power Equipment provide is perhaps one of the most valued services for clients that require it.

It can save your site from significant costs when you're facing downtime.

AUSTRALIAN POWER EQUIPMENT

OUR VALUES

Australian Power Equipment

Always SAFE and resourceful; we think outside the square to get your job equipped in the safest, most cost effective and time efficient way

Pathway to Sustainability; we are on a mission to create the most sustainable products and methodology

Equip communities; we support the future of our community with key sponsorships and donations

We acknowledge Aboriginal and Torres Strait Islander people as Australia's First People and Traditional Custodians.

We pay respect to the Ancestors who walked this ancient land before us, caring for Country so that we may experience it's wonder and beauty.

We pay respect to Elders past, present and future and we thank them for allowing us to be present on this land today.
